**CLEARSTORY**

Clearstory Allowances: Real-Time Control For Real Costs

Tag CORs. Track Usage. Stay in Sync With Your GC.

No more guessing games with allowances. Clearstory let's you tag each COR to a specific bucket, so you and your GC always know what's spent, what's pending, and what's left to bill. No more emails asking for updates. No more surprises when you submit. Just clean, live allowance tracking that keeps your documentation tight and your billing fast.

✅ **Tag CORs to allowance buckets with one click**

✅ **Instantly see how much has been used**

✅ **Align on draws and balances in real time with GCs**

✅ **Keep documentation clean and accessible**

✅ **Cut down on back-and-forth at billing**

How Specialty Contractors Use It:

Create or View Buckets

Open the Allowance Log, select your project, and instantly see any allowances your GC has shared with you. Need to track your own spend? Create your own buckets in seconds.

Tag CORs

Assign CORs to specific allowances as you create them. Clearstory auto-deducts the value with accurate drawdowns without manual entry or guesswork or duplicate logs

Live Tracking

Get instant budget insight and see what's spent, what's pending, and what's left to use across your projects, so you'll avoid overages, eliminate confusion, and stay in sync with your GC.

Audit Ready

Generate clean, polished logs and reports with documentation for execs or GC customers in just a few clicks. Stay in sync without email chains or PDF markups or reconciling spreadsheets.

Ready to track allowances the way your projects deserve?
